

Dr. Michele Beaulieu, DNP, ARNP, NNP-BC is a full time neonatal nurse practitioner, as well as author, researcher and educator. Dr. Beaulieu graduated with her Doctor of Nursing (DNP) degree from Case Western Reserve University Frances Payne Bolton School of Nursing in 2007.

In addition to her full time neonatal practice, Dr. Beaulieu has been the column editor for “Pointers in Practical Pharmacology” in *Neonatal Network: The Journal of Neonatal Nursing*, and co-investigator for several research studies. Her research interests include perinatal safety, extremely low birth-weight infants, neonatal abstinence syndrome, and the management of high-risk newborns in the delivery room. Her doctoral dissertation on “Failure to Rescue as a Process Measure to Evaluate Fetal Safety” was published in *MCN: The American Journal of Maternal Child Nursing* in 2009.

Dr. Beaulieu developed and taught the first online course for the post-master’s neonatal nurse practitioner program at UConn in 2013. She is a member of Sigma Theta Tau (Delta Beta Chapter) and is actively involved in several neonatal and women’s health professional organizations: Florida Association of Neonatal Nurse Practitioner (FANNP), Academy of Neonatal Nursing (ANN), Association of Women’s Health, Obstetric and Neonatal Nurses (AWHONN), National Association of Neonatal Nurses (NANN), American Academy of Pediatrics (AAP), and the National League of Nurses (NLN).
