Hartford HealthCare (HHC) is still expanding and hiring, even during these unprecedented times. We are here to support graduating students in their search for the best opportunity as they launch their advanced practice career.

As the most comprehensive, integrated health care system in CT, we have hundreds of locations across the state in a variety of practice settings offering your graduates MORE OPTIONS to propel their careers to new heights. And all within a deeply embedded culture of inclusion, innovation, and focus on the highest quality of care. We are mentors, researchers, leaders and, most of all, caregivers.

The Hartford HealthCare network includes seven acute care hospitals including one of the largest academic and surgical hospitals in the northeast; thriving community teaching hospitals; one of the largest, physician-led, multi-specialty medical groups in New England with more than 1,000 providers; new outpatient family health centers; and Neuroscience, Urology, Bone and Joint, Behavioral Health, Cancer, and Heart and Vascular Institutes. We offer inpatient and outpatient opportunities in the following specialties:

- Critical care
- Primary care
- Ambulatory and Inpatient Surgery
- Hospital Medicine
- Emergency
- Psychiatry
- Neurology
- Oncology
- Palliative Medicine
- Urology
- and so much more

Understanding how daunting a job search can be for busy students, we would like to extend a personal invitation to graduating students to explore their interests and our opportunities by contacting Advanced Practice Recruiters Ben Eberly at Benjamin.Eberly@hhchealth.org or Sam McNeil at Samuel.McNeil@hhchealth.org.
