Hartford Healthcare Central Region has developed a Student Nurse Advancement Pipeline program to help facilitate student nurses’ growth and development. The position is open and available for freshmen and sophomores that have not yet had clinical experiences.

- **Patient Experience Assistant** – this is an entry level, non-clinical nursing technician role offered to **Freshman and Sophomore** nursing students who have not started, or have had minimal clinical experience. The goal is to introduce them to the acute care, health care environment and increase their level of comfort with patient interaction/communication, hospital initiatives, workflow, and pace. *We are currently recruiting for our December cohort.*
