BENEFITS ➤

gaylord.org
Gaylord Hospital in Wallingford, CT is a 137-bed, nonprofit, inpatient care setting for patients who need intensive medical rehabilitation following an acute illness, traumatic accident, or other serious health event. Headquartered in Wallingford CT on a 400-acre campus that includes walking paths, sports facilities, and aquatics, today Gaylord serves a mix of local, regional, national, and international patients. For more information go to www.gaylord.org. Gaylord Hospital is known for its treatment of a wide range of conditions that demand advanced rehabilitation and medical management - especially spinal cord injuries, brain injuries, pulmonary conditions and stroke. Hospital physicians and staff are highly rated by patients for the depth of their compassion, their clinical excellence, and the quality of the outcomes they achieve as a team.
