NOW HIRING.

First-year and Sophomore Nursing Student Patient Champions

UConn Health has an opportunity for first-year and sophomore nursing students to gain firsthand experience in a hospital setting by becoming a nursing student patient champion. At our prestigious academic medical center, you will work alongside physicians, nurses, and other health care staff to elevate our patients’ experience.

As a nursing student patient champion, you will learn how to:

• Answer a patient’s call bell
• Communicate a patient’s need to their care team
• Perform hourly rounds
• Provide therapeutic communication
• Offer companionship

Visit h.uconn.edu/nursing-student to apply.
